

PROFILE

Dr. Che-Wei Wu, MD, PhD

Director,
Department of Otolaryngology – Head and Neck Surgery,
Taiwan Head and Neck Society,
Taiwan.

Che-Wei Wu is a Head and Neck Surgeon at Kaohsiung Medical University Hospital and an Assistant Professor of Otolaryngology Head and Neck Surgery at Kaohsiung Medical University, Taiwan. Dr. Wu had postgraduate training in Head and Neck Surgery with Professor Feng-Yu Chiang at the Kaohsiung Medical University, and training in Thyroid and Parathyroid Surgery with Professor Gregory W. Randolph at Mass Eye and Ear Infirmary, Boston, USA.

Dr. Wu has experience with neural monitoring starting in 2005. He has focused his clinical research on the application of neural monitoring and developed an experimental porcine animal model to solve common pitfalls and develop novel applications of neural monitoring during thyroid and parathyroid surgery.
