

PROFILE

Prof. Morten Høyer, MD, PhD,
Chief consultant,
Danish Center for Particle Therapy,
Aarhus University Hospital,
Denmark.

Dr Morten Høyer is Professor and Consultant at the Department of Oncology at Aarhus University Hospital. He has special interest in stereotactic radiotherapy of tumours of the brain, lung and liver and in radiotherapy of prostate cancer. His PhD at Aarhus University in 1994 was based on a thesis on studies of cancer cell kinetics and he had his postgraduate specialty training at Aarhus University Hospital and Copenhagen University Hospital, Herlev. He is involved in the establishment of the Danish Center for Particle Therapy and member of the board of the Danish Prostate Cancer Group.
